

II Baluardo Diagnostic Centre

- ◆ The Baluardo Institute, Genoa (Italy) is one of the most modern diagnostic centres in Europe
- ◆ The 3,000m² multifunction diagnostic Centre was designed and built within 24 months and inaugurated in June 1992 to celebrate 500 years of the discovery of America by Sir Christopher Columbus

II Baluardo Diagnostic Centre

- ◆ The Centre is dedicated to prevention, diagnosis and therapy and is split into three operative areas, equipped as follows:
 - Basement: outpatients department, imaging area (TC scanner, 1.5 tesla MRI, mammography, ortopantomography, traditional X-Ray and ultrasound)
 - Basement: laboratory and second outpatients department
 - 1st floor: rehabilitation and gymnasium, cardiology, day surgery, endoscopy and gynaecology
- ◆ Current HCE Professionals were responsible for the design, turnkey delivery and management of the Centre for many years
